

Product Information

Article No. 541 C3 Aluminium Oxide Paper											
Base Stock	Flexible latex C-paper with high tear resistance										
Bonding	Resin over resin with stearate top coat free of any contaminating substances affecting the blending of the lacquer.										
Grain Type	Aluminium oxide										
Coating	Close coat										
Grain Size	P 320, P 240, P 180, P 150, P 100, P 80										
Manufactured Width	1650 mm										
Availability	Velcro discs										
Market Segment	<ul style="list-style-type: none"> Aluminium - sheet metal forming - car body work. Boat building. Sanding of glass fibre laminate and carbon fibre laminate. 										
Advantages	<ul style="list-style-type: none"> Full resinoid bonding ensures excellent performance and durability. The dust repellent top coat prevents premature clogging of the grain surface. No contamination substances are introduced to the sanding area. Brown aluminium oxide grain for maximum performance and durability.
